THURSDAY MARCH 5, 1863.

PENNY-A-LINERS.

The man who debauches his intellect for a pittance, who writes black or white at the dictation of another, who has no other stimulant or guide than lucre, is more pitiable than a galley-slave. Ballad-singers who sell their verses by the yard are indeed contemptible, yet penny-a-liners are no better, since both measure literature as they would calico, crying out to the public, "Who'll buy? who'll buy?"

The editor of a paper of this own is a snob, and we must always regard his opinions as filtered. The fear of losing his salary, of displeasing his master, acts as a nightmare and depresses the flight of his genius. Poor, fellow! his dinner fluctuates before his eyes, and he must heroically accept the dilemma—principle and starvation, or elasticity and pay. He may wear his chains with a good grace, and asseverate that his ideas are uniformly in accordance with those of his task-master—he may roll at his colleagues, stating that they make money out of their abilities, while he has to make money for another—he may write "patriotism" in italics, and interlard every article with high-flown philosophical axioms. But alas! there is no deceiving the public, and those initiated in press mysteries will read the editorial lucubrations as those of a stupid proprietor who employs a literary tailor to clothe his ideas. If the cut or finish be not agreeable, the latter is dismissed; and hence he writes in perpetual dread. If his articles are too long, the proprietor cuts them short, without attending to the thread of the argument. If he presume to hint at conscience or private opinion, the publisher shows him a piece of India-rubber. He has sometimes to turn the brave, and fight any man who differs with the policy whereof he is the exponent. In fine, he is so fettered, that his sighs at intervals break forth like sounds of the Aeolian harp, and we involuntarily cast a tear over the bondage of intellect and grave of conscience.

How different the lot of one who writes the free sentiments of a mind untutored to grovelling inspirations who renders account to no man of his motives or policy, who navigates his barque on the ocean of literature where he lists, having in view only the port of his ambition, patriotism, or folly, being his own pilot, and enjoying the plenitude of liberty with out which the Press languishes, pines and dies. The journalist who writes for the people must have no second master, and we have ever remarked that the connexion between editor and proprietor is an ill-assorted matrimony. The publisher who lacks genius to conduct a paper should retire from the sanctuary of journalism, and the writer whose property depends him of the means of circulating his doctrines should imitate Diogenes. We regret that this system does not prevail in Europe or in B. Ayres, but it is consol ng to find that editors who are not proprietors are becoming the exception, and that penny-a-liners will soon be a relic of the past, only remarkable in the museum of literature for the pliability of their muscles, and chameleon color.

EDITOR'S TABLE.

The advices per Saintonge, concerning River Plate matters, are rather favorable. Mr. Rivera's election to the post of Governor of Buenos Aires is all that is required to make River Plate matters in Europe on the best possible footing. The European capitalists who are in any way connected with this country have every confidence in General Mitres as President, and although we have not one word to say against Gov. Saavedra personally, still the truth be told: he is unknown abroad, and men who invest their money in our securities like to know something about the Governor of Buenos Aires.

As an instance of how the attention of the public is turning towards this country, we extract the following advertisement from the Dublin *Weekly Freeman.*

EMIGRATION TO THE RIVER PLATE, MONTEVIDEO AND BUENOS AYRES.

The undersigned intend despatching during the month of January next, a fine vessel of about 1,000 tons, and will be able to engage passengers at moderate fa es. The attention of emigrants is specially requested to this opportunity. Further particulars may be known by applying to

S. WRIGHT, KELSO & CO.
3, Tower-buildings, Wes, Liverpool.

The National Government, we trust, will help this line of emigrant vessels. We have worked hard to get it established, and sent *The Standard* gratis to the owners in Liverpool, such as Tapscott and others, in the hopes of inducing them to take the matter up. We hope, however, that the Government will not make a bar of us, as in some of our packet reviews we positively asserted that the Government would issue any good number of vessels which would be established.

The island auction, on Sunday next, is the talk of all town; and if a two purpose sounding bid for the property, Mr Croza will become another Monteriste. On Sunday next, at 10 in the morning, the sale will start from the mole, returning at 6 in the evening. A lunch on board, and *carne con carro* on the island. Mr Billinghurst has been down in Cabaches those few days, selling sheep. The bidding was pretty good, and the animals brought their full value; prices ranged from 37 to 58 mje Several sales of sheep have been effected lately, but no good flocks can be got under 5 $.

After all that we have said and written against our Provincial Minister de Hacienda we fell the greatest pleasure in stating that at last he has turned over a new leaf, and, trusting no longer to president, directors, clerks, &c, has satisfactorily assured that the Standard shall be extended, and that, per next packet, an order shall be sent to England for rails, sleepers, &c. This is what we call business. Mr Dominguez seems to have taken a leaf from Dr. Rawson's diary. So long as he acts thus, he may rest assured that the *Standard* will support him.

A beautiful edition of Allisons History of Europe has been brought out by an enterprising publisher, and left at our office for sale. To be sold cheap.

ST. PATRICK'S BANQUET.

A few days ago we published a correspondence touching the propriety of celebrating the festival of the National saint Patrick, in a becoming manner. There certainly is no reason why Irishmen in Buenos Aires should be less patriotic than in Canada, U. States, England, India or Australia. We declined, however, actively espousing the idea from a fear that insuperable difficulties presented themselves, seeing that Irishmen form but a small part of our city population, and our influential camp friends live at such a distance. Nevertheless, having since learned that in former years a grand banquet annually celebrated the 17th March, and that some gentlemen have taken measures to form a committee and issue 100 invitations (including several English and American residents, besides some foreign representatives), we cheerfully land our columns to an enterprise which is meant to reminds us of the land that bore us, and strengthen friendly associations with our brother-nationalists.

It is rumored the dinner will be given at Colon, and that some of our leading men have expressed their intention to be present. In a country where Irishmen have been so remarkably successful in every walk of life, where some can look back on a residence of half a century, it is peculiarly apropos to hold a national banquet which will prove that neither wealth nor years can make them forget the dear old fatherland, and that they still cherish the name and history of Ireland. Patriotism is the first of civic virtues, and we are happy to anticipate that Patrick's day 1863 will not pass over in Buenos Ayres without a fitting commemoration.

THE RIACHUELO.—The residents of this locality are complaining of the bad state of the waters of the river on account of the refuse of the saladeros; yet, strange to say, the average mortality is less than in the healthiest situation in town.

COTTON SEED.—Mr. Wilz has received from the Minister of the colonies in France, sixty pounds of cotton seed which he will distribute at his house.

The *Standard* has already distributed twenty times that amount, between the Government and the public.

NORTHERN RAILWAY.—The rails are now laid as far as the chacra of Mr. White and it is expected that during the month they will be placed as far as "Los Olivos."

The works for the tramway up to the Custom House have not commenced yet, because the whole of the requisite materials have not arrived; they are on board a vessel from Rio Janeiro, expected within a few days.

EUROPEAN NEWS.

FRANCE AND MEXICO.

The *Nord* of yesterday says that the Emperor has lately availed himself of the occasion of a dinner at the Tuileries to speak to some members of the Senate and the Legislative Corps upon the true object of the Mexican expedition. The Emperor having asked what was the state of public opinion in their departments, one of the deputies remarked that every one was talking of the expedition to Mexico. His Majesty replied, "They do not yet understand the thought which dictated this expedition to me; it will be judged later by its results, and every one will see that it has been one of the most important and glorious acts of my reign."

SPAIN.

The *Correspondencia* of Madrid of 18th states that, in pursuance of a Royal decree, all slaves who may accompany their masters from Cuba to Spain, or any other country where slavery does not exist, shall henceforth be considered free.

RUSSIA.

St. Petersburg, Thursday.

The *Journal de St. Petersbourg*, of today publishes an article relating to the insurrection made in a leading article in the *Morning Post* of the 15th inst., that Russia had sent arms to Servia. The *Journal de St. Petersburg* says:—"The Russian Government, intending to make some changes in the armament of the troops, sold a considerable quantity of old muskets at Hamburgh and Lubeck, 35,000 of which, coming from arsenals of Southern Russia, were purchased by an individual, a native of America, and dispatched by him from Kherson. The very conveyance of these arms in carriages through the Danubian Principalities excludes any idea of clandestine transaction. The Servian Government has doubtless the right to purchase arms, since the treaties of 1856 grant to it the right of maintaining a national armed force. The arms were, therefore, not smuggled into Servia. The Prince of the Danubian Principalities are vassals, but not subjects of the Porte. As regards the assertion that Servia had sold arms to the Bulgarians, Prince Michael of Servia declared it to be untrue. Servia is interested in living at peace with her Suzerain; and, on the other hand, there appears to be every reason for the latter to treat the vassal provinces with kindness.

"The policy of the *Morning Post*," concludes the *Journal de St. Petersburg*, "is provocative of agitation, as it might push the Porte to violent measures, and cause either a revolution or a war."

AMERICAN WAR.

New York, Jan. 6.

The success of the Federal arms in the South-west has been great, but not decisive. General Rosencranz advanced from Nashville, Tennessee, on the 26th ult., with 45,000 men and 120 pieces of artillery.

The struggle before Murfreesboro' for the possession of Nashville commenced on the 29th and continued for five days. Both armies fought with the utmost desperation. On the first day General Rosencranz was beaten back with great loss. The struggle was renewed on four successive days, with varying fortune; on the fifth day the battle was closed at nightfall, after severe slaughter on both sides. In the morning, when General Rosencranz expected to renew the contest, he found that the enemy had disappe red, and was in full retreat to Tullahoma, 30 miles distant on the line of the Nashville and Chattanooga Railway.

General Rosecranz has occupied Murfreesborough, but has not been able to pursue General Bragg's army, which retired in good order.

The Federals state their loss at 6500 killed and wounded, several thousand prisoners, and 28 pieces of artillery. Generals Willich and Fry are among the prisoners.

The Confederate loss is estimated at 4500 killed and wounded, and 1000 prisoners. All the negroes captured by the Confederates were immediately shot.

Five thousand Federal cavalry are reported to have made a raid from Kentucky into Tennessee, and destroyed nine miles of the East Tennessee and Virginia Railway, and captured 2000 Confederate cavalry, thus preventing reinforcements from Richmond from reaching Gen. Bragg.

General Sherman, with 40,000 Federal troops, attacked Vicksburg on the 27th ult., Commodore Farragut's gunboats co-opera ing.

The latest accounts state that three lines of the Confederate works, 10 cannon and 700 prisoners had been captured, and that the struggle was still undecided.

Despatches from General Grant to Halleck report that General Sullivan defeated the Confederates under General Forrest, at Lexington, Tennessee, on the 1st, capturing six cannon and many prisoners. The Confederate loss is killed and wounded is put down at 1100, and that of the Federals at 800.

A retachment of General Stuart's, cavalry made another raid into Dumfries on the 2nd inst, and captured 10 sutlers and a quantity of public stores. It is reported that General Stuart has cut off the telegraphic communication between General Burnside's army and the capital.

General Butler has been appointed to the command of the Southern Department, to include South Carolina, Georgia and other States.

The effect of the President's proclamation in the South is not known. It has created great dissatisfaction in the Border States, both among the slaves and the white population.

New York January 8th.

Governor Seymour's Message was well received by the public. He argues against the unconstitutional proceeding of the Administration, directs district attorneys and sheriffs to allow no person to be imprisoned without due process of law; declares the President's confiscation acts and proclamation to be as unconstitutional as the rebellion; proclaims the Union to be indissoluble, and prophecies that the people will triumph alike over Northern Radicals and Southern Secessionists.

The struggle at Vicksburg continued on the 2nd inst.

The Federal forces under Sherman fought to within two miles of the city when they were assailed by an overwhelming force under Jos. Johnston; whole regiments and brigades fought sand to hand; batteries and fortifications were taken and retaken several times, and Sherman driven back to his first line of defence.

The Federal General Morgan was killed, and Smith wounded.

The Confederates have concentrated their forces from Jackson and Grenada at Vicksburg.

Gold reaches a premium of 35 1/2 yesterday and 37 this morning, but fell this afternoon to 36.

President Davis was at Mobile on the 30th inst., and was enthusiastically received. A Charleston merchant had offered 10,000 dollars, for the capture of General Butler.

A balloon reconnoissance from Falmouth had disclosed the fact that a considerable portion of the Confederate army had left Fredericksburg.

A body of Federal cavalry had destroyed nine miles of East Tennessee and Virginia Railroad, burning the important bridges over the Holston and Watauga rivers, and capturing 2000 Confederate cavalry, who were guarding the former.

General Butler has been serenaded at New York. In recognition of the compliment he said:—

"My fellow countrymen,—This is no time for mak ng speeches. I have to thank you for this most kind greeting. There is no reward for a public servant like the commendation of those who have a right to his services, and for this flattering manifestation of your regard I pray you accept my heartful thanks"

The audience were somewhat surprised by this brevity, and after some cheering, interspersed with laughter and cries of "Short and sweet!" withdrew.

In the parlour of his hotel General Butler was greeted by many friends. One lady said to him that she was happy to grasp the hand of the only man who could manage the Secessionists of New Orleans, and she hoped he would do the same good work in Charleston. A requisition is in circulation to get up a public demonstration to the General.

Governor Seymour had issued an order announcing that he had postponed his decision in the matter of the charges against the Police Commissioners, in order that they might have time to procure testimony in their behalf.

The large hall of the Cooper Institute was crowded on the evening of the 5th to its fullest capacity by a mixed audience of white and coloured people of both sexes, to celebrate the emancipation proclamation of the President. The platform was also occupied by representatives of both the Ethiopian and Anglo Saxon races. Speeches were made by the Rev. Dr. Cheever, Lewis Tappan, and the Rev. Mr. Denison, Chaplain of the Washington Hospital, all white, and by Messrs. H. H. Garnet, Rev. Dr. T. Ray Harrold, Professor W. J. Brown, the Rev. Mr. Kane, and other coloured gentlemen. The meeting was very enthusiastic, and cheered for Lincoln, the President's army, John Brown, and prominent Abolitionists of the present day. "John Brown" and other songs were sung.

At Beaufort, North Carolina, Governor Stanley had been hung in effigy.

THE *TIMES* ON THE IRISH BRIGADE.

The *Times* special correspondent, in giving an account of what he witnessed at the battle of Fredericksburg, refers to the Irish Brigade, saying that to the Irish division, commanded by General Meagher, was principally committed the desperate task of breaking out of the town of Fredericksburg, and forming, under the withering fire of the Confederate batteries, to attack Marye's Heights, hovering immediately in their front. Never, says the writer, at Fontenoy, at Albuera, or at Waterloo, was more unadorned courage displayed by the sons of Erin than during those frantic dashes which they directed against the almost impregnable position of their foe. After witnessing the gallantry and devotion exhibited by his troops, and viewing the hillside for acres over with their corpses, which, as nature always leaves, the spectator can remember nothing but their desperate courage, and regret that it was not exercised in a better cause. He then adds —"That my mortal men could have carried the position before which they were "summarily sacrificed," doubtless as it was, it seems idle for a moment to believe. But the bodies which lie in dense masses within a few yards of the muzzles of Colonel Wantana's guns are "the best evidence what manner of men they were who pressed on to death with the dauntless valor of a race which has gained glory on a thousand battlefields, and never more richly deserved it than at the foot of of Marye's Heights on the 13th day of December, 1862.

DUKE OF SAN FERNANDO.—We hear that this gentleman, arrived on board the Saintonge, is going to the charge of the Spanish consulate.

SPECIE.—The Libertad arrived from Montevideo on Tuesday, and brought 400 ounces.

DUTCH NAVY We believe it is the first time that a Dutch man-of-war visits our port.

On Monday the fine steamer *Appledon* arrived from Europe.

EXPANSION.—Colonel Machado has been successful in surprising a troop of Indians who invaded the south of the province, to rob. They were pursued a long time, and took no booty with them, being obliged, during the flight, to divest themselves of their ponchos, lanas, and other articles of weight.

WESTERN RAILWAY The Engineer appointed by Government for the survey of the lines Mr. Otto Arning has been unable up to the present to fulfil his task on account of the state of the *cercles* in that dept.

The Government of the Province have ordered the committee to send to England immediately for the rails, waggons, engines &c. required to finish the road as far as Mercedes and in the meantime the earth works are to be constructed so that when the rails arrive they may be placed at once on the line.

The a statements show certainly very good intentions, but we fear they are nothing but intentions

NEW STEAMERS. The Esmeralda a British steamer 166 tons burden arrived on account consigned to Mess, Nicholson Green and Co. She will be placed on the line between Rosario and Corrientes with a subvention from the Nat. Government.

The Pulaski has been placed in the line of the Uruguay.

The Saintonge is offered on sale or tarter by the owners

The Fairy was ch ctered to go to the river Salado under the command of the Engineer Mr. White, sent out by the Baron Mauá to explore that river with Mr Rams

NEW PROMENADE.—The Plaza 25 de Mayo, which has always been in a bad state, is now cons derably improved.

The Municipality have placed railings, and are going to plant trees, lawns it, etc, so as to improve its general appearance, and convert it into a public promenade.

Dry hides, 400 Entre Rios 39 rls ; 300 do Paraná at 37 rls .

Salt. Two cargoes Cadiz at 8 rls ; one at 3 months, the other with 6 per cent discount

The Provincial Bank will not receive foreign specie in payment of customs and consequently the others have done the same. It however takes at interest.

As yet we know of no transactions in exchange, there are drawers at 70 shillings but no takers.

The money-market is beginning to show signs of improvement, although ounces still rule high. Paper is getting easier and doubtless less required for. The intentions of foreign specie, has as yet had no material influence, but it is thought by many that in a few days the sovereigns will find a pocket, will begin to be let. To-day one house paid away £3,000 in Sovereigns. We are informed that several houses are open to receive this foreign gold at the rate specified, and for what reason we are at a loss to discover.

The London, Buenos Ayres and River Plate Bank has altered its rate of interest, allowing 10 p. ⁰/₀ interest instead of 12 on currency deys sits. This Bank issues drafts, payable at sight at the Union Bank of Ireland. Wool is very much depressed in the plazas, and the fars ers are all depressing.

Some small troops of muvilos have been brought in and 4 or 5 saladeros are killing.

At the meeting of the Bolsa reports were read from Mess. Lanus and Billinghurst, relative to the paper currency question and a committee appointed as follows:

Messrs Sassenberg
" Bonnemason
" Drabble

to see the Government and ascertain its ideas on the subject !!

They also had a commission to ask for a law from the Legislature to make the reception of foreign gold compulsory.

MERCHANTS SAVING INSTITUTION
ALSO FOR ALL
Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY,

No, 50, Calle 25 de Mayo,

And is prepared to sell as good Inks as any sold in the port of the Plata, and warranted to retain its beautiful jet black color which it has at the moment when written, and to be much better than the same can be bought at any other house.

People under the impression, that they pay their 320 rps. for a quart bottle of English ink, can have the same yourself, that most of the Ink sold by English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own name on the labels, for I am well convinced that my Ink is of a much superior quality, and 10 cents more virtuous than most of the Inks.

I—Is of a very rich black at the moment when used:

II.—Retains its color.

III.—Is easily off the pen.

IV.—A preserver of the eyes to those, who have much to write at night, because they need not to have their eyesight, to do what they have written.

For the reasons explained, I hope that my patrons generally entertained against Homa Mann nature will be had aside, and all I ask is, to try the same which will be a benefit to the buyer, and the country, in assisting Home industry.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.

AMBER TEETH SETTING.

156—*Calle Cuyo*—156.

Charles E. Krauss sets teeth by a new invention, amber, which is found superior to every other metal, recommends itself to the gums and palate much better than gold, which requires springs. A set of teeth in amber, are so closely secures for mastication, speaking, and lasts a life time.

My collection of artificial teeth is very fine, and mounted on the most approved mineral set. I will also clean teeth with great care.

I have a number of instruments for extracting roots of teeth, also for stuffing, the same with gold, silver &c., which I guarantee for a number of years.
